November 18<sup>th</sup>, 2015

**MSH INTERNATIONAL is pleased to announce a new partnership with Centric Health, Canada's #1 independent healthcare services provider.**

Centric Health is Canada's largest and most comprehensive independent provider of healthcare services focused on producing leading patient outcomes and delivering high quality care. Centric Health offers the largest network of private surgical and diagnostic centers in state-of-the-art facilities all across Canada.

Expedited access to surgical and diagnostic services could shorten disability durations which may lead to meaningful quality of life implications for Canadians and expats working in Canada.

- A report published by the Fraser Institute noted that lengthy waits for surgery cost Canadian patients a combined \$1.2bn in lost time and productivity in 2014.
- In Canada the average wait time between GP referral and most specialist treatment is 18.2 weeks. However for specialties such as Orthopedics the average wait is 42.2 weeks.
- **At Centric Health surgical facilities wait times for specialists are usually just 1-4 weeks!**

Want to learn more? Visit [www.centrichealth.ca](http://www.centrichealth.ca) for a full range of services offered.

Centric Health facilities can be found online through our members' area, under the "Find a Facility" tool (members' access only). In addition, you can contact our client team at 1-888-842-1530 or by emailing [adminamerica@msh-intl.com](mailto:adminamerica@msh-intl.com).

Centric Health brands include:

Sincerely,

**MSH INTERNATIONAL**
